Portable Microwave Steriliser to  
Disintegrate Coronavirus (COVID-19)

## PORTABLE MICROWAVE STERILISER

DESIGNED AND  
DEVELOPED BY  
**DIAT (DRDO)**  
**MINISTRY OF DEFENCE**

**KILLS CORONAVIRUS AND KEEPS YOU SAFE**

The Microwave Steriliser uses differential heating to disintegrate the Coronavirus. The unit is economical and portable. The virus can be killed by using the steriliser on any surface/material that needs to be sterilised for about 1 to 2 minutes depending on its size. The unit can be used on any sofa, chair, table, stationery or any other item which has a high possibility of being infected with the Coronavirus.

### FEATURES:

- Kills Virus in 1-2 minutes
- Cost effective
- Portable and Easy to use
- Light Weight- less than 5 kgs
- Safe to operate
- Does not use any chemicals
- Ergonomically designed
- Durable and Long Lasting

*For use in Defence and Para Military Camps, Offices, Conference Halls, Residences, Showrooms, Banks, Airports, Railway stations, Municipal Corporations etc*
